

THE GLEICHEN CALL

VOLUME XXVIII NO. 3

GLEICHEN, ALBERTA, WEDNESDAY APRIL 4, 1934

SUBSCRIPTION \$2.00 PER YEAR

FARMERS' ANNUAL LOSS FROM WEEDS ALMOST \$179,200,000

Professors of Agricultural College of the University of Manitoba specializing in weed control, and evidence have made calculations indicating that loss to Western Canadian farmers through weeds amounts to \$179,200,000 annually.

In order to provide farmers with information as to the best means of combating the weed menace, Dr. G. P. McNeill, professor of agronomy and W. Tildesley, assistant on weed research, approached the Northwest Grain Dealers Association with a proposal that the five elevator companies finance scientific investigations concerning weed eradication. Recognizing the need for such a study of the weed problem, the elevator men undertook to raise the funds necessary for the survey. This work has now been proceeding for the past three years and the results of investigations of professors being turned over to the Northwest Grain Dealers.

The studies relate to Couch Grass, Sow Thistle, Canada Thistle, control of weeds by chemicals, and destruction of weed seeds by entomology. The first pamphlets dealing with these subjects is now in the hands of all line country elevator agents for free distribution to farmers. Any farmer may now obtain the latest scientific information on this important subject at any local elevator.

The quality of Canada's grain crops and profitable volume of production can only be obtained through control of weeds. Line elevators company cannot afford to disregard or appreciation of the farming population in recognizing the need for scientific study of this problem and the making available of the results of these experiments to the farmers of the west.

THIEVES ONCE MORE BREAK INTO FURNISHING STORE

One night last week robbers again broke into R. A. Brown's furniture store and carried off about \$10 worth of goods. They gained admittance by breaking a small window high up on the wall at the back of the store and inserting their hand released the catch locking the window and crawled in. If some of the articles in the store had not been disarranged it might have been some time before the robbery would have been discovered. To date no clue of the missing goods have been found. Malcolm states that he intends to sleep in the store from now on to prevent further robberies.

Many who consider themselves outdoors will follow a little golf ball all day.

Hotel Chief

A. E. Robertson, Canadian Pacific hotel executive, who has been appointed Assistant General Manager of the Company's Hotels and Chalet-Bungalow Camps in Western Canada, with headquarters in Winnipeg. In his new capacity, Mr. Robertson will have under his immediate jurisdiction such famous hostleries as the Company's palatial mountain resorts at Banff and Lake Louise, and the Royal Alexandra at Winnipeg, the Hotel Saskatchewan at Regina, the Palliser at Calgary, the Slocan at Slocan, the Hotel Vancouver in Vancouver, and the magnificent Empress Hotel in the heart of the Evergreen Playground at Victoria.

ACTIVITIES OF THE GLEICHEN BRANCH U.F.W.A.

In spite of the blustery weather last Thursday, twenty-five members of the U.F.W.A. met at the home of Mrs. G. Bell.

The roll call was answered by naming a medical scientist. The Club Women's creed was repeated. Mrs. McLeay gave a paper on the life and the discovery of Radium, Marie Curie. The April bulletin on horticulture and home beautification was read by Mrs. Nelson. A presentation was made to Mrs. F. Sammons by Mrs. Bell of a dozen silver spoons and a cold meat fork on behalf of the organization.

A contribution was sent to needy mothers at Salvation Army Home in Calgary.

A letter from Mr. Garland on legalized sweepstakes in Canada was read and discussed.

The next meeting will be held at the home of Mrs. Elder, on April 12.

FROM THE FILES OF GLEICHEN CALL - TWENTY YEARS AGO

Thursday, April 2nd 1914.

Uncle Ben Bell is slowly recovering from a badly sprained ankle.

Robert Peterson has purchased Eugene Babcock's farm and will move on to it soon.

Eugene Babcock gave a farewell party to his friends in the Hamann school.

Mrs. McLeay and daughter are spending a few days in Ouelletville as the guests of Mrs. Conda. Dr. McIntyre and James Gibson spent the week end there.

Wm. Service, fire guardian, accompanied by Constable Carr drove up to Ouelletville in one of Burr's cars with Dave Yule at the wheel.

John Dufour was down from Calgary on first of the week.

Mrs. McCreimin has returned from a visit with relatives in Medicine Hat.

C. L. Farrow, of Regina is in charge of the Revelstoke Lumber yard. Mrs. Farrow and son will arrive soon.

James Cameron, H. G. Lyons, James Young, O. Desjardine, W. Campbell, and E. D. Hardwick have each purchased Ford autos from W. R. McKie and are riding about in them.

Mr. and Mrs. F. Parker and daughter have left for St. Paul, enroute to Texas.

Mr. and Mrs. Boggs and family returned last night from a visit to their former home in England. They were accompanied by Bert James, who has been in Guernsey for over two years past.

Gleichen is getting to be some show town. During the past week we have had two nights of vaudeville, two nights of different pictures and on one night a play.

A. G. Edwards of Cluny has returned from the north with a carload of horses and states that he has in this bunch some extra "fine department horses."

The work of ballasting the new railway cutoff from Gleichen to Shepard was started from the west end.

Fire paid another visit to Gleichen last Thursday afternoon the home of W. R. McKie but an energetic and determined fight subdued the flames. It is noted that that snow was the biggest assist in subduing the fire as the chemicals engines were frozen and refused to work until a fire had been built under them.

Mrs. A. D. Batty left yesterday to join her husband at Brooks, where he has accepted a position for the summer. Next fall they will leave for a year's visit to the Old World.

Dan McLeod is still confined to bed with his old enemy, rheumatism.

Joe Grim has closed up the Athletic club for the season and will spend the summer at Campbell's ranch on the Red Deer river.

Seventeen work teams were purchased during the past week by the Indian agency, at prices around \$350 per team.

George Ramsay returned last week after an absence of nearly two years from Lethbridge, Edmonton and other places.

A Canadian professor declares that earth worms can sing. Some other kinds think they can.

ITEMS OF INTEREST OF THE TOWN AND DISTRICT

Born to Mr. and Mrs. Bert James, Jr., a son on April 3rd.

A very good crowd attended the annual Fremont Ball Monday evening. All report a swell time.

Miss A. Perkins was a visitor for Easter at the home of Mr. and Mrs. J. Greer.

Mr. and Mrs. Geo. Matthews of Vancouver were in town for a short time Saturday renewing acquaintances with old friends.

Saturday was a busy day judging by the large number of people on the streets and in the different places of business.

Money is loosening up in Gleichen, there is no doubt about it. We know a man who found a dollar on the street Sunday afternoon.

"I hear strange stories about how Betty treats her husband. She says, they say, she kisses him in the parlor and kicks him in the basement."

The recent snows have done much in the way of supplying much needed moisture for the ground. It is stated that the ground is thoroughly soaked for a depth of over a foot. This should make everybody happy for we all know plenty moisture is badly needed.

From press despatches we would gather that it is probable Chautauqua is a thing of the past. It has served a day and now the radio takes its place largely. There is no question about the Chautauqua was a splendid educator, it not only brought high-class entertainment in the way of music and plays but the lectures on the programs were most instructive and of wide interest. There is no doubt these past few years of tight money are partly responsible for poorer attendance at the programs. The average price for each performance was not large, but not so many people felt they could spend as much at one time under the circumstances, for the season's tickets.

Some officers in the army may be a bit upish, but not all. It is said of an officer, not a thousand miles away, recently assigned to duty as instructor frankly said to his men: "Well, gentlemen, I don't know a damned thing about this subject, but I will try and be a fair referee between you and the textbook."

Twenty-one boys were present at the meeting on March 20th. The usual meeting was carried out. Besides this Mr. L. Michael gave a splendid lecture on "The Price," which was greatly enjoyed by the boys present. This is the third speech given at the scout meetings and the boys are learning many things from them. This week the Fox patrol tied up the standing since by good work they obtained 8 points. The Owls received 7, Crows 4 and the Pigeons 3. The standing is now, Crows 17, Fox 17, Owls 15, Pigeons 13.

An Alberta man waxed hot when his 15-year-old daughter got married, and threatened to have her and her husband put in jail. He cooled down, however, when he recalled that he had married her when she was only 13.

Naval experts are predicting that destroyers will attain a speed of 70 knots an hour.

What would a show of any kind amount to without a crowd. Witness the following item from a paper: "Mrs. Walter Grob was elected queen to represent this town at the Harrington mule show."

Those who get caught are easier to convince that honesty is the best policy.

COMING EVENTS

April 11—Mademoiselle from Purce at Queenstown.

April 7—C.W.A. sale of home cooking at Mrs. Dufour's.

April 13—Gleichen Gunners hockey banquet in Com. Hall.

REPORT ATTENDANCE UNITED CHURCH SUNDAY SCHOOL

The attendance at the United Church Sunday School for the quarter ending March 31st, 1934 is as follows: Bluebirds 98%, per cent, Mrs. G. Evans teacher; Playmates 98%, Miss Lillian Eason teacher; Sunbeam 97%, Miss Lynette Eason, teacher; O. U. R. 96%, Mrs. L. Jeffers teacher; Dragons 96%, Mrs. Jas. Greer teacher; Eagles 96%, Miss J. A. Cook teacher; Pats 94%, Misses B. Taylor and Allison Evans teachers; Y. P. 86% Miss M. VanVolkenburg teacher; E. Gilbert, superintendent and M. Murray secretary.

MISS GARTSHORE TO GIVE RECITAL IN STRATHMORE MONDAY, APRIL 9

Music lovers of Strathmore and Gleichen and district will hail with delight the news that Miss Isobel Gartshore will give a recital in the Memorial Hall at Strathmore on Monday, April 9th, with Mrs. G. P. E. Boone as accompanist and assisting artist. Miss Gartshore's singing is sheer delight, and she adds to the pleasure of her hearers on each successive occasion.

H. Morty, a resident of Manitoba has \$100 reward to anyone who will "help locate my uncle who died in southern British Columbia in August 1880." The first step we assume would be to find out whether he went up or down.

SHELTER AND FRUIT TREES. SHRUBS AND FLOWERS THAT ARE HARDY ON THE CANADIAN PRAIRIE

After 20 years of experimenting with growing trees on the prairie I have naturally gained some experience and knowledge of what can be grown with reasonable success, and if you intend to set out trees, shrubs and flowers this spring, and if my experience is worth anything to you, I shall here name the sorts I have grown with success, the price of same and where you can obtain them.

SHRUBS

ing you sprinkle the red current bushes in June with Paris Green as protection against lice and leaf worms. Black Apples, White Grapes and Prince Albert Red are the best current. Per doz bushes \$2.50. Gooseberries, Haughton and Carrie, best, per doz. \$2.50. Red Raspberries, per doz. 75c. Senator Dunlop Strawberry plants, best adapted for the prairie, per hundred \$2.00. Chockcherry, Buffalo Berries, Hawthorne, Pinchberry and Saskatoon, 3 bushes for \$1.00. The famous McDonald Red Rhubarb, best of all, per doz. roots \$3.00.

Purple Lilacs, hardiest of all big bushes, per doz. \$3.00. Honey Suckle, red and white, ea. 15c. Villosa and Josika Lilacs each 50c. Spiraea, each 35c., 3 for \$1.00. Snowberry, 35c. each, or 3 for \$1. Flowering Currants 35c. ea., 3 for \$1. Virginia Creepers, each 25c. Hardy Roses that need no winter protection. Grautendorf, Hausen, Persian Yellow, Pink, Dark Red 75c. each, 6 for \$4.00.

PERENNIAL FLOWERS

The only dependable flowers to grow on the prairie are the perennials or those that remain in the ground from year to year. Tulips per doz. 50c. Can only be planted in the fall. Iris Common Yellow and Blue 50c. per dozen. Fancy kind per doz. \$1.00. Phlox White, 25c. a piece. Peonies 3 for \$1.00. Tiger Lilies, single and double, 50c. each, 3 for \$1.50. Gladiolus, mixed per doz. 50c. Baby Breeze, per doz. 50c. Bleeding Heart, 30c. each or 4 for \$1. Delphinium, each 25c. Tansy Flat, blue, per doz. 50c. Sweet Rocket, per doz. 50c. Lavatera, each 25c. Hollyhocks, red, pink, white, ea. 15c. Golden Glow, each 25c.

Owing to low prices and high quality and hardiness of trees and plants, purchaser pays express. Send orders with money to

There is no better place to grow currents than on the prairie, provided

Plum seedlings, 4 to 5 years old, hardy for windbreak, will also bear fruit. 50c. each or per doz. \$4.00. Sandcherry bushes, each 25c. Seedlings, per dozen \$1.00.

SMALL FRUITS

There is no better place to grow currents than on the prairie, provided

"Fresh from the Gardens"

A Tired, Worn Out Woman Can't Make a Happy Home

There is no happiness in the home when the mother is sick and worried by the never ending household duties. She gets run down and becomes nervous and irritable, has shortness of breath, faint and dizzy, can't sleep, and gets up in the morning feeling as tired as she went to bed, and is downhearted and discouraged.

Milburn's H. & N. Pills will soon convince women it is not necessary to suffer, as they build up the nervous system and bring back the former health and vigor.

Go North, Young Man!

It may be that some natural law of compensation works in these things! Just at a time when Western Canada was beginning to accustom itself to the new viewpoint that Canada offered a great wealth of content, along comes a new realization of its potentialities in another direction that fans the flame of its optimism.

The realization is, of course, that in the great pre-Cambrian areas sweeping northwest from the Ontario-Manitoba boundary lies wealth of mineral resources which, if itself, is sufficient to guarantee a great and glorious future for this western country. Development which began in the rock formations of Ontario and which later spread through the same structures in Central and Northern Manitoba, shortly will become manifest in Northern Saskatchewan. This eventually will compensate the prairie regions for the apparently finite glory of their wheat fields.

Youth has suffered as result of economic depression in these western provinces due to scarcity of employment and the narrow field of opportunity open to them in a period of financial stringency and industrial stagnation. Many have been unable to secure a foothold, and have now reached adulthood without attaining that independence without which the term is barren and comfortless. They feel circumstances over which they had no control, and concerning which they had no voice, have robbed them of a birthright—and they are looking to the political leaders for assurance their claims are not being ignored. It is occupation they seek, opportunity to take their place in the full, responsible citizenship of the country.

While agriculture will remain the great source of income of the prairie provinces, it is obvious that, under present world conditions, opportunities for youth in the path their pioneer fathers trod are singularly limited in scope and variety. Obviously then, the salvation lies elsewhere. Opportunities must be created—and created not only for the rising generation now clamoring for its place in the sun, but created also for a future influx of new population which is essential to the attainment of a balanced economic structure upon which future development of these provinces depends.

Immigration, at the moment, is an unpopular topic—and rightly so. Yet wider home markets must be created not only for the produce of the prairie farms, not only for consumers' goods from the industrial east, but also for the products of those countries of the world prepared to absorb our surplus agricultural production. Sooner or later, then, the problem of immigration must be tackled systematically and courageously. It will be necessary, therefore, to make intensive preparations that our own youth and our new neighbors may find employment and thus be enabled to contribute their share to the country's development.

Obviously, the one alternative to agriculture upon which Saskatchewan (particularly) has depended in the past, is a parallel development of other great primary resources of the province which are being developed.

Saskatchewan (and we speak of Saskatchewan particularly because there the problem is acute) has abundant deposits of lignite coal, commercial clays, sodium sulphate and other non-metallic minerals throughout its prairie lands. Oil and gas, which have proved so valuable to Alberta, is being avidly sought in different sections of the province. But away to the northward lies this great pre-Cambrian shield, world's greatest storehouse of precious metals. Its resource too are being tapped by prospectors' pick and by diamond drill. Surely the rock formation from which Ontario is reaping plentiful harvest, surely the veins which have helped build Manitoba through the difficult years, can be exploited to Saskatchewan's advantage and made to yield their just proportion to the economic life of the province!

These thoughts are inspired by a recent statement relative to the Flin Flon mine which straddles the northern Saskatchewan-Manitoba boundary. There, an investment of \$20,000,000 is producing an annual income of \$7,000,000 and maintaining a community of some 4,500 persons. The major portion of the Flin Flon ore body rests in Saskatchewan, and it is only a matter of time when similar development must ensue in the confines of the latter province.

Reports from the Saskatchewan hinterland indicate abundance of mineral resources, and that they have not yet been brought into commercial production is nothing new in the history of mining. Even the great Flin Flon, discovered in 1915, remained undeveloped for a space of ten years thereafter, but, once the complexities of its ore were unraveled, development came quickly.

While agriculture has languished, mineral production in Canada has continued to advance. In 1933, Canadian mines produced \$222,550,098 as against \$191,228,225 in 1932—and the augurs for the future are extremely favorable.

Here then lies a fallow field for the activities of forward-looking government and the energies of ambitious youth! Here lies the West's way out!

Union workers in Scotland are demanding higher wages.

Use Ships As Prisons

When men in addition to men in a future that they have been on a cruise they may be met with suspicious glances. Some of Spain's new prisons are floating ones. Because of the overcrowded conditions of old prisons following enforcement of the new Vagrancy Act, the government has chartered a few ships and put the superfluous prisoners in them.

The Speed Of Lightning

Lightning travels at speeds ranging from 14,800 to 68,400 miles a second, the average speed being 23,400 miles a second, or 15 per cent. the speed of light, according to measurements obtained in a scientific investigation in Africa. Even knowing this a lot of people will go on ducking when lightning is flashing.

Marvels of the Human Eye

By F. M. CROWE, Optometrist-Optician, Calgary

NO. 1—PRESBYOPIA OR "OLD-AGE SIGHT"

Although forty years of age is of course not considered old, yet because Presbyopia usually manifests itself at about that age, it is commonly referred to as "old-age sight". How often we hear people say "my sight is just as good as it ever was except for reading and sewing." Yes, this condition is common to man. Let us consider the cause of this natural development which causes so much inconvenience after middle life.

We have fully explained that in order to have a clear image of a distant object focused on the Retina, the length of the eyeball and the curvature of the Cornea and Lens must be properly related. The first two may be considered as fixed as to length and curvature respectively but fortunately the Lens is elastic and it is this elastic power or "accommodation" which enables us to focus objects near at hand. Accommodation is most powerful around twelve years of age and then gradually diminishes till there is none left at age sixty-five or seventy.

For sustained close work a certain amount is absolutely necessary and this the average person of forty-five does not possess, hence, the necessity of assisting the failing accommodation by artificial means in the form of glasses and as the accommodation continues to decrease, the strength of the lenses must be increased. This change should be every two or three years.

In an individual with normal distant vision such glasses are although necessary for reading, will blur objects across the room. Also the Presbyope who needs glasses for distant vision will require different strength, or Bifocals, for near work. The first symptoms of Presbyopia are difficulty in reading by artificial light, having to hold the paper twenty or more inches away instead of fourteen or sixteen inches. With advance of time other complications arise. The muscles in an effort to force a focus, become unbalanced in their relation to each other, causing eyestrain, headaches, eyeaches, burning sensation, watery eyes, print blurred and all together a general drowsiness after a short period. These are not only the symptoms of uncorrected Presbyopia but are also signs to older Presbyopes that it is "time for a change."

Since the eyes have to converge when reading, how remarkable it is that the same nerve, the third or motor Oculi, supplies the power both for Accommodation and Convergence in order that they may work in harmony and when they fail to do so by neglecting to wear the proper glasses, trouble is bound to follow.

Presbyopia is not a disease but is due to natural progressive changes in the eyes and when properly corrected the eyes need assistance—no continued abuse. (To Be Continued)

Grim Battle For Life

Esquimos Marooned on Ice Floe For Month Before Being Rescued

Trapped on an ice floe in Amundsen gulf while attempting to cross the 300-mile stretch from their native village on the southern shore of Banks island to the mainland, half a dozen Esquimos fought a grim battle for life early this winter as they drifted up and down the gulf for a while more before they were finally able to land, when almost starved, at the Pease Point post on the Arctic coastline.

The story of the near tragedy was brought down from the Arctic by Patay, Andrew and Jorgen Klengren and their partner, J. P. Lyngbo, who operates a string of three trading posts on Victoria and King William islands in the Arctic ocean. The four traders arrived in Edmonton on their way to Vancouver for a brief holiday before returning to their posts on the ice-covered islands which are the northern-most points upon which human beings, either native or white, live.

The three Klengren brothers, some of the famous Capt. Charles Klengren, pioneer navigator and fur trader in the Arctic, who died in the summer of 1931 at Vancouver, were born in the Arctic and have been operating their father's string of trading posts with the exception of their school days spent at Vancouver and brief visits "outside" every few years, they have spent their lives in the Arctic.

Lyngbo, their young friend and partner, went north with them for the first time from Vancouver three years ago.

Whole Wheat Rolls

- 1/2 cup milk
- 2 tablespoons lukewarm water
- 2 tablespoons Crown Brand Dry Syrup
- 1/2 teaspoon salt
- 3/4 cup flour
- 2 tablespoons Mazola
- 1 egg
- 1 1/2 cups whole wheat flour.

Scald milk and when lukewarm stir in the yeast dissolved in the warm water. Beat in the whole flour and let rise in a warm place until doubled in bulk. Cut down the dough and add the Mazola mixed with the beaten egg, the syrup, and the salt. Let rise again until double in bulk, then cut down and roll out. Cut into rolls of the same size and bake in a hot oven, about 400 degrees, for twelve minutes or more. On taking the rolls from the oven brush over with Benson's Golden Syrup. Some cooks give a flavor to their whole wheat buns by adding a little grated lemon rind to their dough with the whole wheat flour. The above quantity makes 25 fair-sized rolls.

Just A Mere Trifle

Goofus—I hear that old Moneybags was waylaid and killed last night.

Rufus—Is that so? Did the criminals get away with much money?

Goofus—No. The old man never carried the money. A little small change around with him and so practically all he lost was his life.

At Crater Lake, Oregon, last winter the total snowfall was 679 inches, or more than 73 ft.

Dixie Plug is the thrifty man's pipe tobacco, the smoke that gives more for the money. Cut this big plug the way you want it. Coarse or flake, long or short, to your taste, and more economical as well.

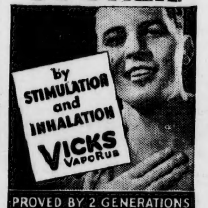

Only Six Are Left

Flint Knappers Carry On Trade In Small Suffolk Town

The natives of West Africa and the East Indies have to rely upon the small Suffolk town of Brandon to supply them with flints for firing their old-fashioned rifles. Brandon is the only place in the world where flint knapping is still carried on. The six knappers, only remaining representatives of the craft, can be seen at work in little wooden sheds, probably on the same spot where thousands of years ago Ancient Britons knapped the flints into sling stones, arrows, spears and so on. Flint-knapping entails three distinct processes. First the rough flints are dug from nearby pits, are quarried; next they are flaked into six-inch strips and then cut into the desired shape. The flints are knapped into four sizes for fitting into the locks of muskets, carbines, horse pistols and pocket pistols. They are shipped in barrels of 5,000.

Claimed to be the largest in the world, a paper-making machine in Bury, England, will have a capacity of 1,000 tons of newspaper a week and will produce rolls 320 inches wide.

Ends a Cold SOONER

PROVED BY 2 GENERATIONS

Ask Mother—She Knows

Mother took this medicine before and after the babies came. It gave her more strength and energy when she was nervous and rundown... keep her on the job all through the change. No wonder the recommends it.

Ease Pain, Headache in Few Minutes

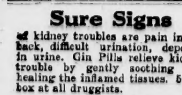

For Quick Relief Say ASPIRIN—When You Buy

Now comes amazingly quick relief from headaches, rheumatism, neuralgia... the fastest relief, if it is said, is discovered.

These results are due to a scientific discovery by which an Aspirin tablet begins to dissolve, or disintegrate, in the amazing space of two seconds after touching moisture. And hence to start "taking hold" of pain a few minutes after taking. The Aspirin tablet, the glass, here, is the Aspirin tablet, the glass, here, is the Aspirin tablet, the glass, here, is the Aspirin tablet. When you buy, though, be on guard against substitutes. To be sure you get ASPIRIN's quick relief, be sure the name Bayer in the form of a cross is on every tablet of Aspirin.

Does Not Harm the Heart

Sure Signs
of kidney troubles are in the back, difficult urination, deposits in urine. GIN PILLS relieve kidney trouble by gently soothing and healing the inflamed tissues. 50c a box at all druggists.

Phillips' Milk of Magnesia

THAT DEPRESSED FEELING IS LARGELY LIVER

Wake up your Liver Bile

—Without Calomel
You are "feeling poor" simply because your liver is pouring out a surplus of bile into your bowels. Digestion and assimilation are hampered, and your whole system is being poisoned. Phillips' Milk of Magnesia is a liver stimulant. Something that goes farther than bile. It is a laxative, mild or strong, and it cleanses which only more the bowels—removing the real cause of trouble. Phillips' Milk of Magnesia is the Little Liver Bile. Purely vegetable. No harmful calomel. It is the only laxative for which name has been substituted. See all druggists.

Town & District

Some of the trees about town have already begun to bud.

Mrs. C. W. Harrison is at present visiting at the coast.

Mrs. C. G. House left for Vancouver Friday morning to visit her daughter, Mrs. Telford. She was accompanied by another daughter from Kirkcaldy and will be away for a short time only.

W. F. Ferguson is another Gleichen visitor to the coast.

There was quite a few visitors in town from outside points over the Easter holiday.

The C. W. L. will hold a tea and sale of home cooking at Mrs. P. Downey's home on Saturday, April 7th.

H. L. Phillips, the local station agent spent a couple of days in Vancouver last week, visiting Mrs. Phillips who has been ill for the past three months in that city. Mr. Phillips reports that Mrs. Phillips is much improved in health.

Mrs. Thorburn and family have moved into the Breerton house.

Good Friday was a very quiet day in town. The mud and slush was so bad that it was almost impossible to get anywhere without getting a fine coat of it.

It is reported that the Canadian Pacific Railway is furnishing the agent here with trees to be planted near the station grounds destined to improve the appearance of the surroundings in view of transients and tourists.

The people living in the Grasswold Municipality have a proposal for a highway through Standard and Rosebud, connecting main highways number two and nine, the latter at a point near Kirby's school in the Drumheller district and the former at a point where the main highway turns south to Gleichen. The road proposed by the Grasswold Municipality, highway committee would go right through the centre of their municipality and serve all the people in the municipality. This road would be to a certain extent of great benefit to people living in the Blackfoot municipality. Already there is a well graded road from Standard south connecting with the road running west from Hussar.

Mr. and Mrs. A. Makensy are preparing to move into the residence recently vacated by Mrs. Thorburn.

A class for beginners will be started in the primary room when school opens again. Pupils must be six years of age on the opening day.

Frank Fobst of Red Deer, formerly of the Royal Bank here, was a visitor in town during the weekend. Frank likes to visit the old town once in a while.

High Hamar of High River is expected home this week for his vacation.

Mr. and Mrs. Ramberger and Vic of Keoma were in town visiting their daughter Mrs. L. Suther, over the week end.

The W. A. held a successful sale in the Legion hall last Saturday.

All roads lead to Queenstown next Wednesday April 11th, where the boys of the B. E. S. L. will present Mademoiselle from Gay Parces, at their big dance. St. Hopkins Radio Orchestra is going to supply the music for the dance. A large number of Gleichen people intend to take in this event.

Rupert Hunter has developed into a magician of no mean ability. See his rope and coin tricks as they are baffling. Always all keep an eye on your coins when Rip is doing his stunts.

There was a grand rush for car licenses Saturday. So great was the demand the supply in the hands of the local dealers soon disappeared. More plates are expected to be on hand today.

The Indians put on a big dance in their hall south of town Monday night. On the Saturday previous to the dance the Indians took out a whole wagon load of grub and several cases of pop to help wash it down. Our red brothers stated they thought they had enough food to satisfy a crowd of 200 which they estimated would attend and as they expressed these thoughts cordially invited the reporter to come and enjoy the festivities. Unfortunately he reporter was indisposed and unable to attend and he extends his sincere apologies to our red friends.

Here and There

A. C. Leighton, R.E.A., president of the Government Art College at Calgary, will again hold his summer art school for selected art students from the province of Alberta at the Karasauk Lodge Ranch near Banff, Alta. Mr. Leighton, who is a grand nephew of the late Lord Leighton, president of the British Academy from 1878 to 1896, has been painting for years at Banff and through the Canadian Rockies. He is also head of the Institute of Technology and Art in connection with the University of Alberta. The Karasauk Lodge Ranch operated by Mrs. Bill Brewster, is well known throughout Canada and the United States, and is surrounded by the most magnificent of Canadian Rocky Mountain scenery.

Governor Frank Murphy, of the Philippine Islands, was the guest of Commodore R. G. Latta, of the Canadian Pacific liner Empress of Britain, at Manila on March 15. Governor Murphy inspected the liner, which is engaged on her annual Round the World cruise, and visited Commodore Latta and his ship many happy returns to Manila.

Captain Cyril D. Neroutsos, for many years Manager of the British Columbia Coast Boat Steamer service of the Canadian Pacific Railway, relinquishes his duties on April 1st under the provisions of the Company's retirement regulations. He is succeeded by Captain B. W. McTearney, formerly Marine Superintendent at Vancouver.

Worry makes thin people thinner and fat people fatter.

If you had a voice like thunder, with a megaphone attachment you could not reach as many people as you can through our want ads. You have not got the voice but our paper is at your service all the year around.
